

CLOSEOUT SPECIAL! WHILE SUPPLY LASTS

Helix Power Tower Plus Throttle Body Spacers

Design Breakthrough!

INCREASED AIR-FLOW
creates better engine cylinder filling
and can be used with any grade of fuel
for more power and economy.

COMPUTER DESIGNED
chambers and channels specially
designed to improve efficiency and air
velocity performance.

VARIABLE VENTURI APERTURE
provides turbulence to mix the air/fuel
charge for a more complete burn
efficiency.

HELIX POWER TOWER PLUS
is precision machined from solid T-
6061 billet aluminum for long lasting
performance.
